

University of the West of England, Bristol

SuDS used

- Permeable pavement
- Swales
- Infiltration Systems
- Retention ponds
- Wetlands

1. Location

University of the West of England, Coldharbour Ln, Frenchay, Stoke Gifford, Bristol BS16 1QY.

2. Description

The sites comprises wetlands, infiltration systems, swales and porous systems. Most of the original ponds and swales were constructed prior to the recent drive towards sustainable drainage solutions. The frontage of the site incorporates a number of wet and dry ponds with swales/low flow channels.

3. Main SuDS components used

The following SuDS components were used on this site:

- Permeable pavement
- Swales
- Infiltration Systems
- Retention ponds
- Wetlands
