(Maximum 150 words total)

<p>Inspire – how has your champion inspired others regarding SuDS?</p>	<ul style="list-style-type: none"> • Jamie’s practical approach to delivery and skilled internal networking has seemingly resulted in the delivery of c.100 raingardens across the council’s highway network. The finished products are always simple and effective whilst being of the highest calibre, inspiring other officers across London and the country to follow suit.
<p>Inform – how does your champion share good practice?</p>	<ul style="list-style-type: none"> • Jamie is always available to show people around the fabulous range of schemes she has been involved in delivering across Enfield whilst relaying the history behind their creation. She is always quick to supply high quality images when requested as well as feeding into the wider programmes such as the London Drainage Proforma. She is also exceptional at public engagement, successfully explaining the virtues of SuDS to the local communities. I have in fact personally witnessed her winning over initial sceptics of a scheme in Haselbury.
<p>Influence – how has your champion dealt with challenges and shared their enthusiasm about SuDS?</p>	<ul style="list-style-type: none"> • Jamie has managed to persuade many different officers across the council of the virtues of SuDS which has resulted in her successfully managing to integrate SuDS within high street regeneration works, highways traffic calming measures, cycling infrastructure and social housing refurbishment. In fact she has even managed to convince her colleagues that SuDS should be incorporated into their schemes as standard and seemingly no longer needs to persuade them with additional funding.
