Some thank yous

www.ciria.org | www.susdrain.org

Steering group

- Lead local flood authority x5
- Contractors (engineering & landscape) x5
- Consultants x3
- Enviro regulators x2
- Sewerage undertakers x3
- Manufacturers x7

Contributions from 25+ other organisations

www.ciria.org | www.susdrain.org

Why did we bother?

- Poor construction affects us all.
- Contractors (still) getting the blame.
- Needed something to be written for contractors.
- Guidance to complement the SuDS Manual, but written for contractors.
- SuDS is more different than difficult.
- Support good communication, preparation and inspection.

www.ciria.org | www.susdrain.org

What are we doing next

- Susdrain 2018-20
- Making B£ST better
- SuDS performance
 - Collation of evidence
 - Monitoring specification
- SuDS adoption hierarchy
